All –

If one of you has a moment could you please review the attached draft talking points and provide and edits by mid-day tomorrow before I send to Chris Beach.

Most is recycled language, but I'm not aware how familiar the Administrator is with OAR's progress on OOOOa up to this point and if you think he may need more (or less) background information.

Thank you

Clint and Alex, this is what the Marcellus Shale Coalition presented at WH not too long ago, in case this helps: <http://marcelluscoalition.org/wp-content/uploads/2018/02/White-House-Jan-918.pdf>

**Subject:** REQUEST for Talkers for Adm. Wheeler PA Trip

Team,

Adm. Wheeler will be traveling to the Pittsburgh area on Monday. He'll be doing an event with the Marcellus Shale Coalition and the Washington County Chamber of Commerce as well as a visit with a conservation group.

OAR – could we get the usual talkers/background sheets on the big Marcellus/oil & gas issues – methane, emission controls, etc...? (Clint, I already touched base with Alex on this.)

OCFO – could we get talkers on the president's proposed fy 19 budget funding reductions to EPA (Congress has already worked its will to ensure funding via the last spending package, etc.)?

OLEM – could we get talkers on abandoned mines?

There may be other requests for additional topics coming your way, but I wanted to get these requests out ASAP. We'll need to put everything together by 4pm tomorrow so if you can get it to me before then that'd be much appreciated. Tate, if I forgot anything on here, feel free to add to this.

Thanks all!

Chris
